NETWORKING

Business After Hours (BAH) offers relaxed networking in various Missoula venues. Held every 2nd Tuesday at a Chamber member's business, attendees are able to network, win door prizes, and get updates on Chamber initiatives. Join us for a vibrant evening of connections and camaraderie!

Missoula Young Professionals (MYP) aims to empower professionals looking to further develop their Missoula network and grow personally and professionally. Through monthly events sponsored by a Chamber member business, attendees are able to make career connections through networking - & win some great door prizes! Join us every 3rd Tuesday!

MEMBER OF THE WEEK

Eric Petersen
Owner

PETES Electric has been a family owned and operated business for over twenty years taking care of Missoula's electrical needs. We provide electrical service for residential and commercial projects from the smallest service call to the largest electrical project. Whether it is electrical design, new construction or remodel work one of our 25+ team members can get your problem solved. We provide service from Polson to Darby and Superior to Deer Lodge, give us a call 406-543-3086 or visit <https://peteselec.com/>

I've learned that being a member of the Missoula Chamber of Commerce is the number one box that needs to be checked when trying to be a viable local business. The support that I've received over the past twenty years of being a member has been incalculable.

The GREATEST value has been the relationships that have been made through social events and the business network groups that we were a member of in the past. Hundreds of thousands of dollars of business referrals have been received by us just by being a member.
